

# Kids Choice

Dear Parents,

Welcome to Kids Choice Childcare Centre. We hope your child's stay with us will be a happy and rewarding experience.

Undoubtedly you have taken a lot of care in selecting a quality setting for your child. It is important for you to continue to show that level of concern, by getting to know our staff, our organizational structure and policies. A parent handbook is provided for that purpose.

Various avenues of parent involvement are encouraged. Close communication with program staff is an excellent means of involvement. After your child's staff does the Developmental Screen on your child you will be invited to meet with the team and develop some goals that you feel are important to you and your family. This will enhance your child's developmental opportunities and enable you to be aware of information provided by the staff and partake in parent activities. If you have a strong commitment to high quality child care, we urge you to consider volunteering your time and/or skills with us or possibly joining us on a field trip. If you are in need of any parenting or child rearing information please ask the staff, we have many resources available to you and your family.

The Director and the Assistant welcome you to drop by the office at the daycare for clarification of a policy or procedure or just a friendly chat. You are most welcome to spend time with us, whether in the office or in the program rooms. Let's work together to give your child the best care possible.

Sincerely,

Director  
Kids Choice
